Imagine the brilliantly exciting way you will dramatize your home or office with this handsome pair of hammered iron Peacock wall plaques. The total effect is one of such breathtaking beauty that they will be the focal point of beauty in your home. Unfortunately it is impossible to reproduce the full breadth of their three dimensional "sculptured" bodies from the small black and white illustration here. Only when you see them gracing your home can you fully appreciate the drama they bring to every setting.

Christine Boyle of Hampstead says: HERE IS WHAT THE MARK EDEN DEVELOPER DID FOR ME: INCREASED MY BUSTLINE FROM 33″ TO 36½″ IN JUST 8 WEEKS!

WHAT IS THE MARK EDEN METHOD? The Mark Eden Method is not a cream, not an artificial stimulator. It is an excerciser that employs special techniques safely and effectively — the degree of effectiveness turning upon physical factors, motivation and application which vary among individuals — with hundreds of women throughout America reporting remarkable success in developing their bustlines.

Mrs. Margie Davis, Macon, Ga.: *"I am so pleased with myself and my developer and so is my husband. I went from a 32A to a 36B."*

IS EVERY WOMAN ASSURED SOME RESULTS WITH THE MARK EDEN DEVELOPER? No, it would be impossible to assure every woman that she will achieve specific proportions, measurement increases, or results. However, hundreds of women have been thrilled beyond their expectations and are proudly reporting outstanding gains on their bustlines, often in just a matter of weeks, with this remarkable developer.

Mrs. Myralin Collins, Grand Prairie, Texas: *"I can hardly believe my own results. I have increased my bust from a 34B to a 36D in just 30 days with the Mark Eden Developer."*

IS EVERY WOMAN ASSURED OF THE MARK EDEN MONEY BACK GUARANTEE? Yes, absolutely! Any woman who is not completely happy with her results is protected by the MARK EDEN MONEY BACK GUARANTEE! **If the Mark Eden Developer does not produce for you the results which have delighted so many of our customers, this is your guarantee:** If after using the Mark Eden Bustline Developer and Course for only two weeks, you do not see a significant difference in your bustline development, simply return the developer and course to Mark Eden and your money will be promptly refunded.

Mail in your coupon today and find out what the fabulous Mark Eden Method can do for you.

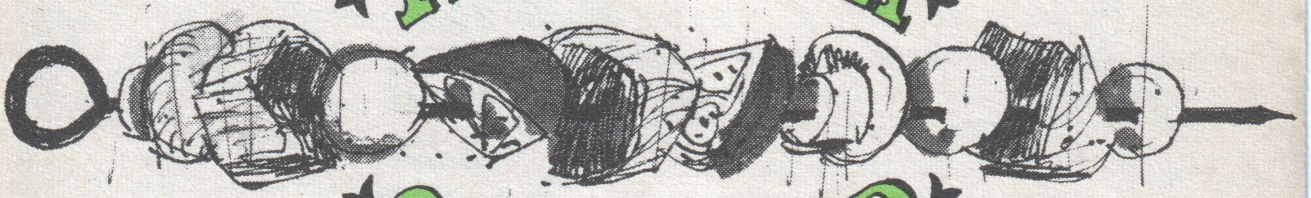
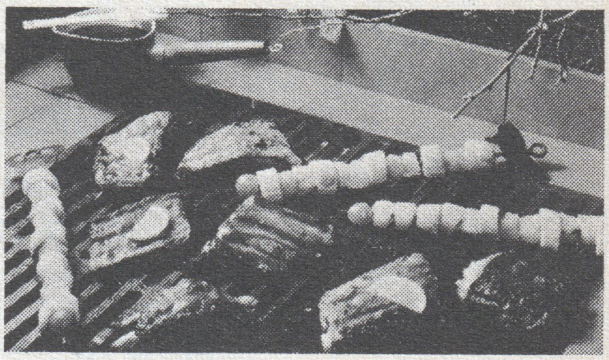
MEAL ON A SKEWER



Summer and outdoor exodus may be to the back yard or patio while others will travel to their favorite spot miles away. Kabob cookery is an ideal way to prepare a meal out-of-doors. Long-handled skewers with pieces of meat alternated with chunks of vegetables or fruits, can be cooked over an outdoor grill in a few minutes. Serve them as a main course, add a vegetable and meal is complete.

Bacon kabobs are an interesting version of skewer cookery. Weave strips of bacon with chunks of pineapple, pieces of green pepper, mushroom caps, small onions, tomato wedges and pimiento pieces. Grill over hot coals or under broiling unit of stove until bacon is well done and accompaniments lightly browned. Serve at once.

Other interesting skewered combinations are: chunks of ham alternated with quartered apples; frankfurter pieces with pineapple chunks and green olives; beef cubes with quartered tomatoes and mushroom caps; lamb cubes with green pepper pieces and small whole onions; bacon with chunks of calves liver; and cubes of canned luncheon meat with banana sections. Cook these over low heat until browned and cooked through.



Chunks of fruit alternated on skewers is a good accompaniment for barbecued ribs.

Barbecued Spareribs With Fruit

- 6 pounds (2 racks) spareribs
- 1½ teaspoons salt

Cut spareribs into serving pieces; place meaty side up, on shallow foil-lined baking pan. Sprinkle with salt. Top with lemon slices. Bake in 350° F. oven 1 hour. Remove from oven; pour off fat. Refrigerate. When ready to grill, combine remaining ingredients except fruit. Place spareribs on grill 6 to 8 inches from heat; brush with sauce after 15 minutes. Cook 15 minutes longer, brushing with sauce. Alternate chunks of bananas, pineapple and cherries on skewers. Brush with barbecue sauce and grill last 10 minutes of cooking time, until fruit is heated. Makes 4 to 6 servings.

For outdoor grilling, try Persian Kabobs.

Shrimp Fruit Kabobs make tempting, colorful kabobs for summer.

Shrimp Fruit Kabobs

- 1 cup orange juice
- ½ cup vinegar
- ½ cup salad oil
- ½ cup soy sauce
- 1 teaspoon salt
- 1 pound fresh shrimp, shelled and deveined, or 1 (8-10 ounce) package frozen shrimp, thawed
- 16 thin slices lime or lemon
- 16 maraschino cherries
- 1 large banana, cut in thick slices

Combine orange juice, vinegar, oil, soy sauce and salt; blend. Add remaining ingredients to marinade. Chill 1 hour. Drain and reserve marinade. Arrange shrimp, lime or lemon slices, cherries and banana slices on 8 skewers. Broil kabobs 3 to 4 inches from source of heat, or cook on outdoor grill 3 to 4 minutes on each side. Heat remaining marinade and serve as a sauce with kabobs. Makes 8 servings.

Western Kabobs

- 2 pounds boneless round steak cut in 1-inch cubes
- meat tenderizing salt
- ½ cup soy sauce
- ½ teaspoon ginger
- 2 tablespoons salad oil
- 1 tablespoon sugar
- 1 number 2 can pineapple chunks, drained, or 1 cup fresh pineapple chunks
- 3 tomatoes, quartered

Sprinkle steak cubes with meat tenderizer, pierce with a fork to allow tenderizer to penetrate. Combine soy sauce, ginger, salad oil and sugar. Marinate meat cubes in sauce for one hour, turning occasionally. Place meat cubes on skewers alternately with pineapple and tomatoes. Broil over hot charcoal coals until desired doneness and browned as desired, turning and brushing occasionally with remaining marinade. Makes 6 servings.

Fish Kabobs

- 4 cloves garlic, crushed
- 1 teaspoon crushed red peppers
- 1 teaspoon paprika
- 1 tablespoon salt
- 1 cup vinegar
- 2 cups water
- 2 bay leaves, crushed
- 4 to 5 pounds haddock fillets

Combine all ingredients except fish. Pour over haddock fillets, marinate overnight. Drain fish; save marinade. Cut fillets in long strips about 1 inch wide; wind on skewers, making loops in opposite directions, running skewer through fish at each turn. Place on grill about 4 inches above hot coals. Broil about 15 minutes, or until fish flakes easily with a fork, and is golden brown, turning often and brushing with marinade. Serve in frankfurter rolls which have been heated on grill. Makes 8 servings.

Lamb Kabobs

- 1½ pounds boned leg of lamb
- 2 jars (4½ ounces each) large whole mushrooms, drained
- ½ cup salad oil
- ¼ teaspoon basil
- ¼ teaspoon thyme
- ¼ teaspoon rosemary
- ⅛ teaspoon leaf oregano
- 3 tablespoons lemon juice
- ½ pint cherry tomatoes

- green pepper pieces, optional
- small whole onions, optional

Cut lamb into ½-inch cubes. Arrange with mushrooms in shallow pan. Combine oil, seasonings and lemon juice. Pour over meat. Let stand in refrigerator several hours.

Drain meat and mushrooms, reserving marinade. Thread on skewers with tomatoes. Use about 6 lamb cubes, 3 mushrooms and 2 tomatoes per skewer. Broil 5 inches from heat 15 to 20 minutes, turning as needed. Brush frequently with drained marinade. Season with salt and pepper. Note: Beef may be substituted for the lamb. Makes about 8 kabobs.

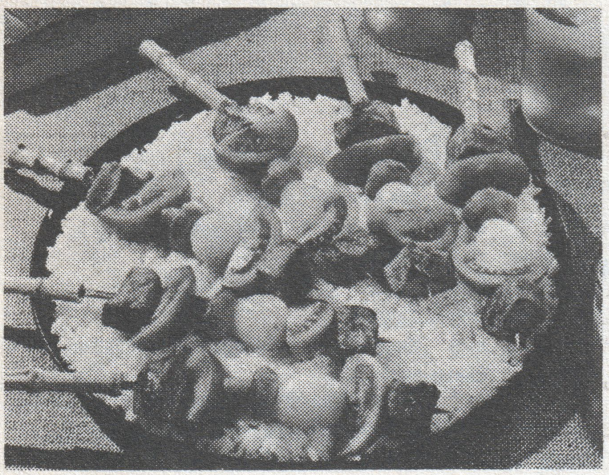
For kabobs, chill mushroom and onions. Drain; skewer on toothpicks with green pepper pieces. Anchor toothpicks in small cabbage or grapefruit, if desired.

For dip, blend tomato paste with sour cream and remaining ingredients. Chill thoroughly. Makes about 1 cup.



These shish kabobs have a variety of foods strung on skewers just like beads.

FLOWER and GARDEN

What can I do to prevent my gloxinia leaves from curling and getting brown spots on them? Mrs. F. S., Iowa.

Dry air usually causes curling and brown spots are from water on leaves or too much sunlight. Gloxinias need very damp, warm conditions and bright, diffuse light—very hard to achieve in average house where air is too dry and light uneven. Try growing plants over pans of water (do not stand pots in water) and keep moisture from leaves.

How can I get slips of hydrangea to root? Mr. H. S., WI

These are very difficult to propagate. The best way is to pull down a branch and layer it for two years. Or take soft cuttings in mid-spring, treat with root hormone powder and put in individual pots filled with 1 part loam, 1 part leaf mold and 2 parts sand. Plunge pots in sand-filled flat and cover with plastic.

Please give cultural instructions for shrimp plant. Mrs. G. B., Ind.

Pot it in equal parts of loam, sand and damp peat moss. Keep it in a sunny window in a room where humidity is high. Let soil dry on top, then water thoroughly. Feed with half-strength liquid house plant fertilizer every month or two; more during summer. Prune it frequently to keep compact and to encourage new, flowering shoots.

I have purchased two plants called groptophyllum. Are they house plants or can they be put outdoors? Mrs. E. M., TX

These are tender, but they can be set out through summer. Root cuttings to bring in, as old plants become ungainly.

How do I care for a small table palm? Does it require fish fertilizer? E. H., NJ

These grow in equal parts of garden loam, damp brown peat moss and sand. Keep soil evenly moist. Normal room temperature and humidity suit them fine. Grow near a bright window (no direct sun), wash foliage with tepid water weekly and feed once a year in early spring. Fish fertilizer may be used.

After repotting, my lettuce leaf begonia no longer produced characteristic ruffled foliage. How do I remedy this? Mrs. W. S., WA

Repot in a mixture of equal parts loam, brown peat moss, leaf mold and sharp sand. Keep moderately moist until growth resumes, then keep evenly damp. Give bright light, even morning sun and as high humidity as possible. Feed with diluted fish emulsion only when growing vigorously.

When I brought my asparagus ferns in before freezing, I put them in basement where they get lots of sun and almost all needles fall off. Do I water too much or should I cut plant down? R. H. S., Ia.

The basement is probably too dark and too dry. Try moving plants in gradually—from garden to edge of porch for a few days, then to back of porch for a few days, then into basement. Keep a tray of water under them to raise humidity.

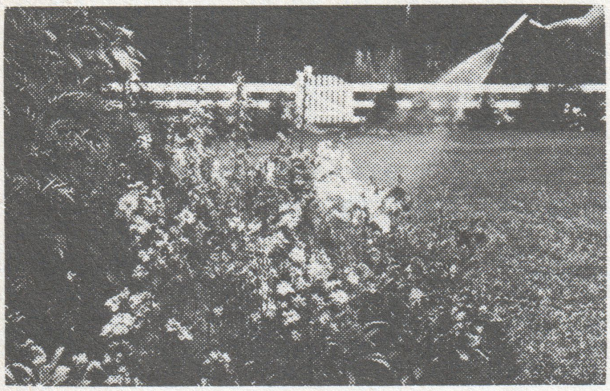
Watering Flowers In Summer

Betty Brinhart

Since water is essential for intake of soil nutrients by plants, it only stands to reason that proper watering is keynote to beautiful flowers in summer. No matter how much fertilizer is turned into soil, it will not benefit plants unless they can absorb some in solution form each day, along with sufficient water to carry on their growth processes.



Do not water flowers from top.

Providing sufficient soil moisture for flowers does not mean to hose them down every day. Cultivate beds often to prevent hard crust from forming on surface. Rain waters, which are high in nitrogen, are quickly absorbed by loose soil, then stored in root zone in easy reach of plants. An organic mulch will greatly increase ability of beds to absorb and hold rain water.

Plants, by evaporating moisture through their leaves, are able to maintain proper growing temperature within cells. The hotter and drier the day, the more moisture leaves must emit in order to maintain this temperature.

If drought hits and soil moisture is not replenished, plants dry out and become woody. Recovery is very slow when rains finally do come, which results in poor bud set and inferior bloom.

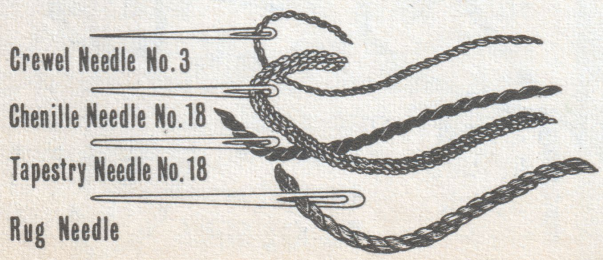
Simple Crewel Embroidery

Crewel embroidery is also known as Jacobean embroidery. It is usually worked with twisted yarn and is a very popular type of needlework. You can actually paint with a needle using different decorative stitches and exciting colorful yarns.

Linen is probably one of the most common background materials used although different fabrics with a fairly loose weave may be used. Crewel yarn, which is a 3-ply yarn (3 strands twisted together), or other desired yarns are quite satisfactory. Crewel yarn is separated into 3 single strands and only one is used for nearly all stitches unless otherwise specified. Crewel needle number 3, chenille or tapestry needle number 18, or even a rug needle can be employed (see sketches of needles).



Crewel embroidery may be worked with or without a hoop. Work stitches fairly loosely as fabric may pucker if yarn is pulled tightly. It is advisable to work stitches close enough to cover each area without overlapping yarn. Some of the more commonly used embroidery stitches are sketched here along with instructions for each.

You can stamp your own design on desired material or purchase crewel embroidery kits which are available in needlework departments and through mail-order companies.

Charts and diagrams always accompany each kit. These show various colors and stitches to use. The direction of stitches in areas to be filled in, with either long and short stitch or solid stitch, is shown on chart but is not, as a rule, stamped on material.

The crewel design shown in photograph is a good one for beginners to try. It has an interesting design stamped on a fine 13 x 13-inch piece of Belgian linen (natural color). The kit also includes 100% wool yarn, crewel needle and easy-to-follow instructions with diagram and chart. Use finished piece as a picture, wall hanging or pillow top.

Editor's Note: Crewel Embroidery Kit, No. 0212, includes stamped linen 13 x 13", yarn, needle and instructions (frame not included). Costs $1.00 postpaid. Send check or money order to: Allison Scott Co., Dept. WB, 5 Orchard Court, Spring Valley, N. Y. 10977.

Common Crewel Stitches

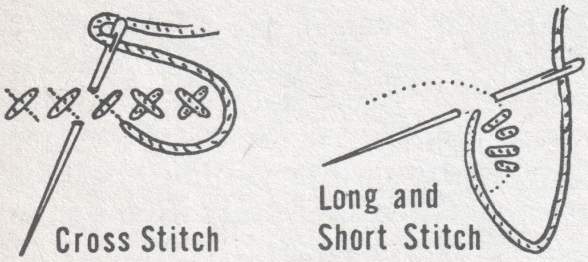
Use the following simple how-to instructions and illustrations to practice and improve basic crewel stitches.

(Continued on Page 32)

Crewel Embroidery

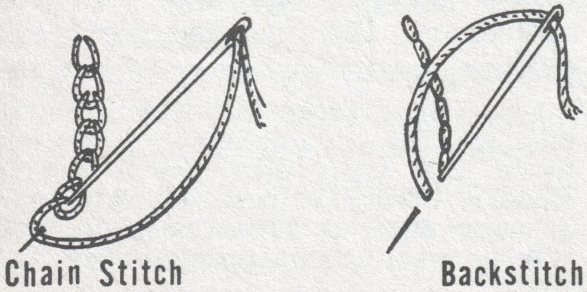
(Continued from Page 31)

Long and Short Stitch — These are alternate long and short stitches made from one end of a straight line to other.



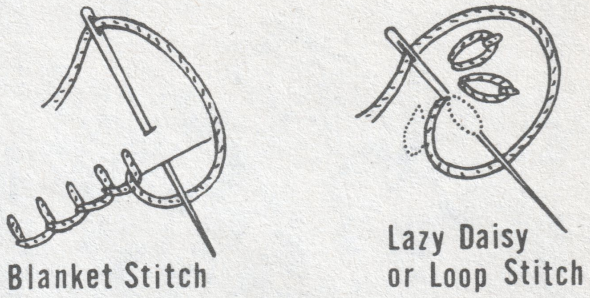
Cross Stitch—Make a slanting stitch from lower left to upper right corner of cross. Make a second slanting stitch from lower right to upper left corner of cross. All crosses should be worked same way to give a uniform appearance to work. In working long rows with same color, all stitches slanting in one direction may be made across row, then work back, crossing all stitches in other direction.

Chain Stitch—Bring thread to right side of material, hold thread toward you with left thumb, take a stitch into same hole where thread was brought up, forming a small loop. Do not pull thread tightly. Bring needle out a short distance forward and over loop. Make a second loop overlapping first one. Continue along marked line.



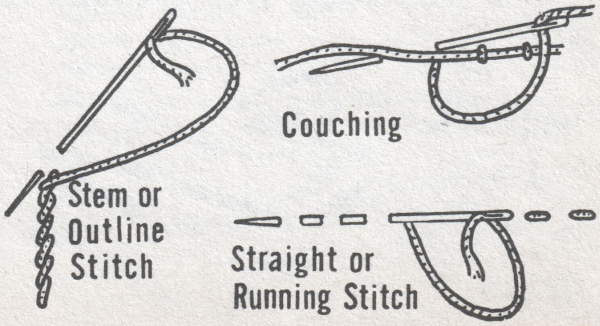
Backstitch—Take a small running stitch, insert needle at end of running stitch, thrust needle through to wrong side and over twice as much space as original stitch on wrong side; bring needle to right side and repeat.

Lazy Daisy or Loop Stitch — Bring needle up at inner point of petal, hold thread toward you. Thrust needle down at inner point of petal, 1 or 2 threads to right of point where thread emerges; bring point of needle out at outer end of petal, going over thread. Draw loop up to cover petal, thrust needle down outside of loop to fasten it in place. Bring needle out at inner point of next petal to left or right.



Blanket Stitch—Work from left to right. Draw thread through at desired distance from edge. Hold thread at left and toward you. Thrust needle through at desired depth, and draw toward you, passing it over thread. Draw up until purl of thread lies along edge. Keep stitches evenly spaced.

Couching Stitch — Hold a heavy thread or cord or several threads along line to be followed. Bring needle, threaded with finer thread, up close to cord. Thrust needle down on opposite side of cord to make a stitch at right angles to it. Bring needle up to left in position for another right angle stitch. Continue taking stitches over cord, spacing them evenly.



Straight or Running Stitch — This stitch is used for outline and padding. The needle is carried in and out of material making small up and down even stitches. Take several stitches on needle before drawing it through.

Outline or Stem Stitch—This stitch is worked from left to right. Bring needle up through fabric to right side on line to be outlined. Holding thread toward you as shown (or thread may be swung to left away from you), take a short slanting back stitch along stamped line. Make next and each successive stitch from right to left and bring needle out to left at end of previous stitch. Repeat along line, keeping stitches small and uniform.

Knitting Tips

When using several strands of yarn and jumbo size needles, join new yarn at edges by tying each strand separately, never in bulky bunches.

Never hang a hand knit on a hanger; fold neatly and place in drawer or on shelf.

When knitting a design from a graph, try enlarging it on graph paper. This makes for faster and easier knitting and reading.

If yarn tends to tangle and knot often, slip through an empty thread spool and knit as usual.

Row 7: * K 3, p 3, repeat from * across, end p 3.

Next Row (wrong side): K across, making ridge on right side of sweater.

Work 7 rows in stockinette st. On 8th row (wrong side), k across to start second pattern band.

Second Pattern Band—Row 1: * K 3, p 3, repeat from * across, end p 3.

Row 2: P 1, * k 3, p 3, repeat from * across, end p 2.

Row 3: K 1, * p 3, k 3, repeat from * across, end k 2.

Row 4: * P 3, k 3, repeat from * across, end k 3.

Row 5: P 2, * k 3, p 3, repeat from * across, end p 1.

Row 6: K 2, * p 3, k 3, repeat from * across, end k 1.

Row 7: * K 3, p 3, repeat from * across, end p 3.

Next Row (wrong side): K across, making ridge on right side of sweater.

Alternate these two pattern bands with 7 rows stockinette st between. When piece measures 13 inches, bind off 4 sts at beginning of next 2 rows. Keeping pattern continuity, dec 1 st at beginning and end of every other row 17 times (work dec on right side of work). Place remaining

18 sts on st holder for neck.

Back: Work same as front, except omit pattern bands after first pattern band.

Sleeves: Cast on 32 sts. Work in k 1, p 1 ribbing for 2 inches. Change to size 8 needles and work for 1½ inches in stockinette st, ending with k row. K next row across on wrong side. Work first pattern band. K next row on wrong side. Work 2 rows stockinette. Inc 1 st each side every 6th row 10 times (52 sts).

When sleeve measures 16 inches or desired length, bind off 4 sts at beginning of next 2 rows. Dec 1 st at beginning and end of each k row 17 times. Place remaining 10 sts on holder.

For second sleeve, use second pattern band so that slant of lines falls in opposite directions.

Finishing: Sew sleeves to body, transfer 10 sts of each shoulder and 18 sts of front and back (56 sts in all) to size 7 double pointed needles. Work around in k 1, p 1 ribbing for 1¼ inches. Sew underarm seams.

HERE AT LAST; an all-new electronic bug trap which can attract & destroy thousands of flying insects daily. The killing action is fully automatic. Just switch on & its continual silent operation needs no further attention. Sprays & chemicals swiftly lose their power outdoors. You spray vile-smelling dangerous insecticides only to find minutes later you're swatting & scratching at swarms of annoying bugs again. KILL-RAY traps constantly remain 100% effective!

Some traps are designed with single light rays visible from the front only. KILL-RAY need not be aimed; the tri-color rays generated are visible in all directions, drastically increasing luring range area. Insects within this huge range are irresistably attracted as if by magic. Once they have homed-in on the rays, the 1,250 volt charged grid will instantly electrocute insects on contact, yet is perfectly safe for people & pets! Compare this with other traps of only 300 to 600 volt power which simply stun many insects temporarily. Our new tri-color tubes attract a much wider variety of insects than ordinary single color lights. Extensive research by universities and agricultural research entymologists has proven certain colors of light will attract some species of insects more than others. We have incorporated the three most desirable colors—blue, green & high-angstrom invisible black-light rays!

BLACK-LIGHT INSECT TRAPS were originally developed for commercial use. These $1000 to $2000 huge traps are used at ball parks, race tracks & other public areas. Expensive, but they do the job! A number were used at the N.Y. World's Fair where they proved amazingly effective for a 2-year period. Now this smaller trap for home use has been developed. Over 100,000 are now in use in hospitals, restaurants, motels, farms, on patios, in gardens, at swimming pools & most of all, in homes like yours, indoors or out.

We wish to quote in part from an article from a nationally distributed garden publication with the largest circulation in its field: "We put our trap into operation about mid-July of last year. We were amazed at the effects. We could open our windows; no moths or mosquitoes entered. We could sit outdoors & truly enjoy it. Our trap captured from a pint to a quart of flying insects every night. Even our neighbors remarked about the decrease in insects so we knew the effects were far-reaching enough to cover our own property. All night-flying moths & many destructive day flies as well are attracted to light. We kept ours in operation until after freezing weather, a period of 5 months. The decrease in insect damage in just this short time was noticeable. By putting it into use in early spring, we are hopeful of even better results."

OUR NEW SUPER-POWERED MODEL is eye-catching! Sturdily constructed & finished in an attractive antiqued 'basket-weave' pattern, it is decorator designed & approved, and has the charm & elegance of expensive swag lamps which have become so popular recently. Hang it anywhere with pride! Its soft, colorful light makes it ideal as a night light. It measures a compact 12" high & 7½" wide, yet its tremendous blitz-like action has the amazing ability to destroy thousands of insects daily. Hang one in your home, garden or patio. You'll find it ornamental & practical.

KILL-RAY WILL GIVE YOU MANY YEARS OF TROUBLE-FREE SERVICE. There are no moving parts to fail, and is completely silent & odorless in operation. It is transformer-operated for maximum durability & safety. Additional tubes are available from us at $2 postpaid.

OUR SUPPLY IS LIMITED. Orders will be filled on a first-come, first-shipped basis. We anticipate far more orders than we will be able to fill. Orders from hospitals, institutions and farms will be given first priority. Order now . . . the sooner you start, the better. Destroy these pests now before they're able to lay their damaging eggs. Similar units have been sold for $25-$35; take advantage now of our pre-season offer & save $5 on 1 unit and $12.40 on the purchase of 2 units. This pre-season offer may not be repeated.
